

Change their phone. Change their lives.

*Real stories from CaptionCall users,
including some from our veteran heroes.*

More than 12,000 hearing care professionals recommend CaptionCall—which is a powerful statement itself. But it's what patients have to say that tells the true story of CaptionCall. See how suggesting this telephone solution has real impact.

You can share these stories with your own patients, too. Download CaptionCall Customer Stories here.

"I am a 96-year-old WWII veteran. I lost almost all of my hearing 76 years ago in a combat-related incident with a German tiger tank. For all that time since, my wife has answered the phone. When I received my CaptionCall phone about two years ago, I returned to society full time. In fact, I am a bit jealous when my wife beats me to the phone! I have only one word for this phone: FREEDOM."

Stan

Bend, OR

"I quite likely lost most of my hearing as a result of mortar and artillery shells landing near me in WWII. I'm 93 and have only 6% hearing in one ear and 30% in the other. I have a very hard time understanding on the phone, especially when someone talks too fast. CaptionCall is a very helpful communication tool and I'm so thankful to have the use of it."

Joe

Des Moines, WA

"Receiving my CaptionCall phone was one of the best, most pleasant and professional presentations that I have ever experienced. I can actually hear and understand what is being communicated on the phone now. I have recommended CaptionCall to many. All I can say is that it is the best thing that has happened to me and my wife."

Jerry

Hillsboro, OR

"Life after 80 began having a CaptionCall connection. It's the only phone I can hear well enough to carry on a conversation. Not sure how I lived before I had my Caption Call, too old to remember.

Gina

Bellevue, WA

Some stories have been edited for spelling, grammar, and length.

"I am so happy to be able to communicate with my family. They are so used to not calling me, I had to remind them and show them the unit. AMAZING! Totally grateful for opening up conversations. Tears of JOY... thank you so much."

Mary

Decatur, IL

"My CaptionCall phone has been a life-saver for me. I have profound hearing loss and have special problems understanding some of my grandchildren because of the tone of their voices. But with the CaptionCall phone I am able to understand so much. I was particularly excited about getting CaptionCall on my iPad. I take several long trips each year and can now keep in touch while away. Thank you, Thank you, and Thank you."

JP

Alexandria, VA

"I was not able to use the telephone for several years. Calls went unanswered because of my hearing loss. New, expensive hearing aids did not help. I had given up using the phone completely. When CaptionCall informed me that I could get a CaptionCall phone I was somewhat skeptical. This phone made all the difference. I now answer the telephone without a problem and again feel connected to the world."
