

Introducing CaptionCall Education Days

Invite your local CaptionCall Account Manager to spend some time in your clinic educating your patients about the CaptionCall phone and service. While there, they can provide a variety of services:

- Educate patients on the benefits of staying socially connected
- Show features of the CaptionCall phone and how easy it is to use
- Address eligibility requirements
- Explain how CaptionCall can be made available to them at no cost
- Explain why understanding conversations by phone can be very difficult

CaptionCall Education Days not only provide value for your patients who have an appointment that day, they provide an opportunity to invite other patients into your office for a CaptionCall demo, and to provide an additional touch point for you and your staff with many of your current patients.

To schedule a CaptionCall Education Day for your practice, simply reach out to your local Account Manager to arrange a time that works for both of you. If you're not sure who your Account Manager is, call us toll-free at 877-385-0936.

Call your Account Manager today to schedule a CaptionCall Education Day!

CaptionCall Education Days are designed to enhance the experience of your current patients, and are not to be used as a recruiting tool for new patients. Professional certification is required for your patients to participate in this no-cost program.
